

ATC-6 Fiber Cleaver

Features:

High reliability
Good cleaving performance
48,000 times cleave per blade
High stability and precision

Applications:

1. FTTx construction
2. Optical network construction
3. LAN, WAN, and Metro networks
4. CATV networks

Specifications:

Fiber Type	single fiber
Fiber Diameter	250um/900um/Ribbon Fiber
Bare Fiber Diameter	125um
Cleave Angle Capability	typically $<0.5^{\circ}$ (single core)
Cleave Length	5~20mm
Blade Lifetime	48,000 times fiber cleaves (3,000 times*16 positions*3 blade heights)
Dimension	100W*76D*61H (mm) (with fiber collector)
Weight	407g
